Hospital on Wheels

ABOUT PROJECT

The purpose of HOW project is to screen and diagnose diabetes and related complications in disadvantaged people who could not access to healthcare facilities in remote areas of Pakistan. Furthermore, we will provide them immediate care at their doorstep. Those required advanced level care will be referred to TDC Hospitals or nearest tertiary care Hospitals.

UPDATE ON PROJECT

We are delighted to bring you the latest update on our "Hospital on Wheels" project. Your continued support and interest have been instrumental in driving our mission to provide accessible healthcare to underserved communities. The project will shortly begin operations in about 4 to 6 months, and we'll keep you informed.

FUNDRAISING EVENT

A fundraising event was organized by The Diabetes Centre (TDC) Australia on 30th September, 2023. The event was held at Taj Agra Restaurant, Luxon Street, Belconnen, Australia. Muhammad Ali was the moderator of the event. The chief guest was Zahid Hafeez Chaudhry High Commissioner for Pakistan to the Commonwealth of Australia and the guest of honor was Moazzam Shah. TDC Australia's achievements and treatment mission were briefed by Dr. Asrar Khan, President of TDC Australia. Sheikh Muhammad Fauzy highlighted the importance of Zakat and charity in Islam. Dr. Ahmed Khan introduced the audience about Hospital on Wheel. The amount of 105 K AUD was fundraised during the event.

Participation of people from USA, UK, Australia and Pakistan in this global campaign was remarkable. People from these countries participated in this global fundraising event by making monetary contributions, volunteering their time, organising charity runs, and other local activities, and spreading awareness through social media and personal networks. Their support proved essential for raising significant funds for the Hospital on Wheels project.

UPCOMING INITIATIVES

Expand Coverage:

Expand the reach of our mobile medical units to remote and marginalized areas, bringing essential healthcare services closer to those in need.

Advanced Equipment:

Through your generous donations, we will be able to upgrade the medical equipment on our mobile units. This ensures that our medical staff can provide even more comprehensive care, including diagnostics and vaccinations.

Health Education Workshops:

In the coming months, we will be launching health education workshops and awareness campaigns in the communities we serve. These initiatives will empower individuals with knowledge and promote healthier lifestyles

Your continued support is essential to our mission. Donations, whether big or small, go a long way in sustaining and expanding our operations. You can make a contribution by visiting our website
